### **Kaua'i reports two new COVID-19 case on Monday**

LĪHU'E —The Kaua'i District Health Office today reports two new positive cases of COVID-19. The current number of active cases now stands at seven. The cumulative total of cases to date is 42.

Today's cases are adult residents and were tested because they are household contacts of Saturday's cases. The two cases announced on Saturday were unrelated to each other and unrelated to the current cluster of cases on Kaua'i. All four of the most recent cases are travel related.

The state Department of Health (DOH) continues to gather more information. All the new cases are in isolation and contact investigations are ongoing. Close contacts will be identified and notified directly by DOH personnel and offered a test. Updates on new positive cases will be announced as they are confirmed.

As a reminder, officials urge the public to refrain from large gatherings with people outside of your immediate household. If you must go out, wear a mask, keep your physical distance from others, and stay outdoors as much as possible.

Today's new cases will be reflected in Tuesday's statewide count found at hawaiiicovid19.com. The count is updated at noon every day. For local updates, visit the Kaua'i Emergency Management Agency page, [www.kauai.gov/COVID-19](http://www.kauai.gov/COVID-19).
